Exercises in Aimed Solar Returns from the Blog of Ciro Discepolo (56)

Hello Ciro,

My name is Gina, my birth information is: September 24, 1965, Elena, Bulgaria, 2:40 am.

Please indicate what you think would be the best location for my 2012 Solar Return.

I currently live in New York City. I am thinking of going to Rio de Janeiro for my Solar Return. Is this a good location for me? Is there a more benevolent choice for me? I am interested in a Solar Return that benefits both my professional and personal life. I am an artist and I also would like to improve my financial situation.

Please include your thoughts for the most beneficial, as well as most stressful aspects you see and if there are any particular dates to be aware of, during the year.

With deep gratitude,

Gina from Bulgaria

Welcome Gina from Bulgaria!

Rio de Janeiro is impossible for your next Aimed Solar Return, putting the Sun in the 12th House and Mars in the First House (on the cusp). I advise you Igarka in Russia.

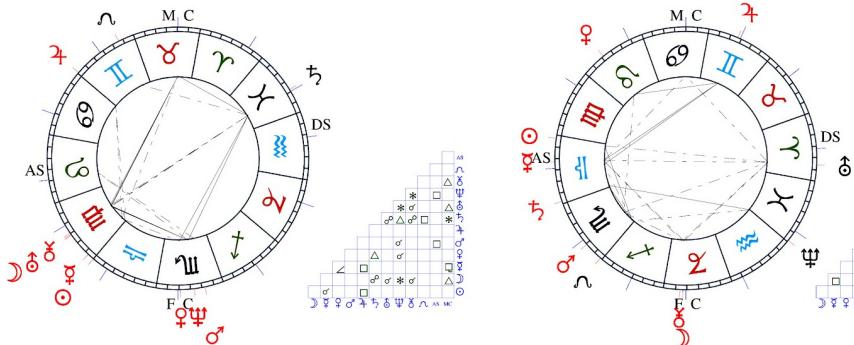

Attention, read also this:

Where it will be my birthday?

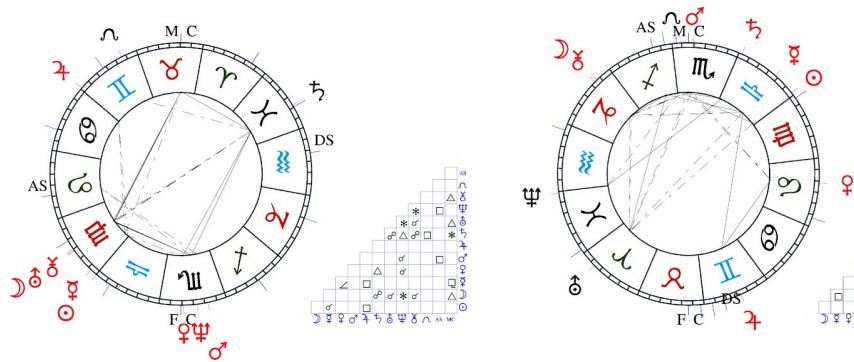

Passing the mouse pointer on a graph, you will read, in low to the right of the screen, the name of the recommended place.

If this didn't have to happen, I recommend you to use as browser Chrome of Google that is free and, in my opinion, the best.

Best wishes.

ASR 2012 Rio De Janeiro For Gina

ASR 2012 Igarka Russia Airport Code IAA Near Norils'K For Gina

Caro Ciro,

Thanks for your response.

I thought that being in Rio this year puts my sun in the 10th house. I

am surprised that your calculations show it in the 12th.

What are your thoughts on this?

Gina

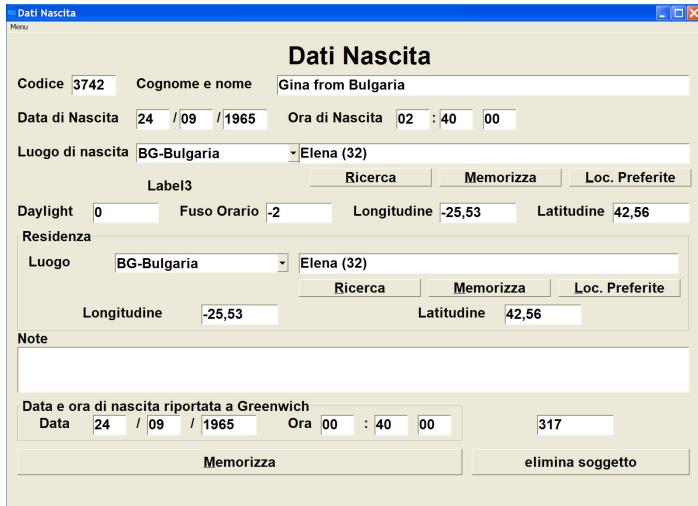

Dear Gina,

I think that you inserted wrong birth data in your computer.

On September 23th 2012 in Elena, Bulgaria, there were GMT -2 and no Daylight Saving Time, with a longitude of $25^{\circ}53'$ East and a Latitude of $42^{\circ}56'$ North.

You can check this on my Aladino screen (see under) and on the Thomas Shanks Bible.

If you paint the Natal Chart departing by these data, you obtain the same graph by Aladino and Astrologiaitaliana.it and by astro.com:

Natal Chart For Gina By Aladino

The many software and websites can have:

- A zero horary regimes database
- An about 250.000 cities horary regimes database (Astrologiaonline.it or www.astro.com)
- An about 3 Millions cities horary regimes database (Aladino)

But it is not sufficient. I have studied, personally, for many years, the

Natal Chart For Gina By Astro.Com

Bibles of Thomas Shanks, of Henry Le Corre and of many others, but I have improved these databases by direct contacts with international astrologers of many countries of the whole world.

It was not sufficient for me and I studied many books of history to clear the situation of Italy and of France during the Second World War, but also the one of Palestina and many others.

In my database, for example, you don't find, simply that in Italy there was a week of difference in the return to legal time in the Summer 1944 at North or at South of Italy: no, Aladino, (I think the only software in the world) is able to distinguish every little city of the "Linea Gotica", the geographical line to consider the North and the South in my country in 1944.

The same thing is for all the little cities of France, day by day, that

were took by Germany Army and changed in their time from France Time to Germany Time (2 hours after).

However all these information that I am writing for you and for all the students of Astrology are low useful because, I think, every astrologer have to calculate first in his mind the chart and after by computer.

Let's refer to you situation.

Your birthday Sun longitude was about $0^{\circ} 45' 25''$ degrees in Libra.

When you will have next Solar Return? On September 23th 2012, at 9.24 am, Greenwich Mean Time!

Well, now I ask you: if the Solar Return time is, in Greenwich (London) 9.24 am, who could be it in Brazil? Obviously it will be 9.24 – 3 or – 4, that means about at 5-6 am, Brazil Time. And a second question: at 5-6 am the Sun is in the 12th House as I put in my chart or it could be in the Tenth House, near MC, as you say?

Naturally the Sun, in Brazil, at the moment of your next Solar Return can be only near the Ascendant and very far from noon!

I hope that in the future you will check this simply reasoning for every Aimed Solar Return.

Best wishes.

Dear Ciro

I am just changing my professional life right now (new job which just began on July 20th 9h00), and after inquiry on your astro-geo risk software, I noticed that I have a high risk to stay in Paris for my Birthday, (natal date = Dec 11, 1959, 9h30, Limoges - France), with 66 score negative.

This new job is very tough, (and I have been suffering from my Mars square Pluto enough in the past), so it is important to optimize

my SR. Going somewhere out of Paris is the key, but where?

Anyway I have read your book about what to do in case I cannot leave, but I have no time for gum or plastic surgeries in 2013, and would highly prefer to have fun a few days somewhere instead.

I tried several destinations with your software, but is there a way to calculate the best place?

I have read all André Barbault's litterature, and am wondering if he is on a good shape right now, as I haven't seen anything published by him on his website recently?

all my best

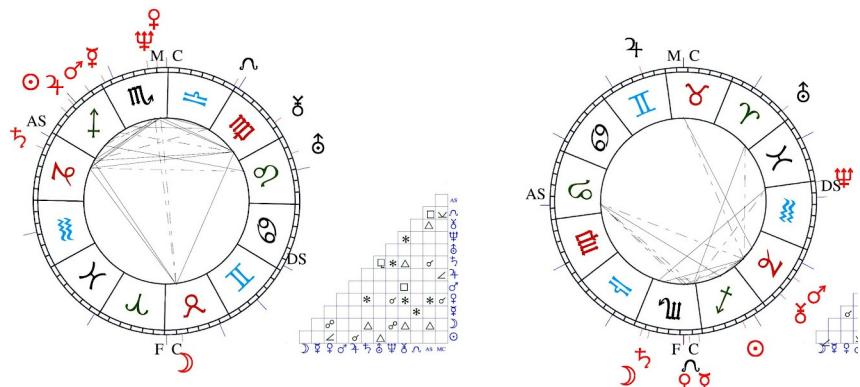

Christine from Paris

Dear Christine,

to find a good Aimed Solar Returns you can use the 30 rules of the book of mine "Transits and Solar Returns" with the aid of the Index of the Year Risk or you could use the fantastic Aladino (but I don't sell it abroad) or you can ask a consultation to a my student or colleague or you can ask, for free, a my advice here.

I advice you Culiacan Sinaloa Mexico that is not wonderful, but that is, in my opinion, the best for you next birthday, with Jupiter in the X House and Venus on the 3[^]/IV Houses' Cusp.

Best wishes.

ASR 2012 For Christine Culiacan Sinaloa Mexico

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 65 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia). He has published also about 750 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
