A Russian Astrological TV Transmission About Astrology

You can get it here:

The REN TV, one of the most important Russian TV, transmitted, on January 15th 2013, a very interesting and long (1 hour and 37') transmission about Astrology.

About a dozen Russian colleagues and 3-4 astrologers of the world out of Russia, have illustrated some topics of the Art of Urania.

These good journalists went, the last month, in my home to save an interview that you can watch from 17'58" and over, many times.

I think that it was a very interesting program.

There is another news for my Russian readers: a my good colleague of Moscow is translating my book "Transits and Solar Returns" in the Russian language.

A good day to All.

Please. for my followers on YouTube: I cannot answer to your question there.

Please, post them here.

Thank you very much.

Dear Mr. Discepolo,

A few days ago –and a few days before my birthday - I decided to have a look at my 2013 Solar Return chart. It would be just for fun, since I had never been occupied with this field of Astrology.

It showed a stellium of planets spanning from Aquarius to Pisces in 12th/1st houses.

To my surprise, the SR ASC was the same as my natal, and so was Mercury, together with a powerful (that was my initial thought!) Mars right on SR ASC. Wow, I said, it's going to be an awesome year!

It was after googling “Solar return ASC same as natal”, that I came across your website and your work on Solar Returns, where, not only I learnt that this is normal for a 33-year old birthday, but also that I am about to experience a very bad year..

Then I tried to overview my past SR. Some years were indeed worse than others: 1992, 2001, 2004, 2008, 2012.

What they had all in common, was SR Mars in angular SR houses, and 3 of them (2004,2008,2012) had as ASC the sign of my natal MC.

Then, following your advice, I casted a few more charts changing the

reference place, but unfortunately there seems no chance in Europe.

I think New York seems promising, although I'm not sure I can afford such a trip at the moment.

Thus I decided to contact you and, if I am lucky, to hear your opinion on how crucial this SR is and if I definitely have to move myself for birthday.

I also wonder if the 20-days prior to SR is representative of the following year: I've been having some light health issues, but it could also be due to transit Mars in house 12, right?

Thank you in advance for your time,

Gina

I was born 10th February 1980, 08:10am, 23e43, 37n58.

Dear Gina,

actually your Aimered Solar Return in the place where you live is very bad.

Now I will give you some advices: you can follow them or to think about them with your no-experience.

In the second case, I think you make serious mistakes because you have only a few days to go and you can not compensate the difference in experience in this field between you and me.

If you want read some of my more than 70 books that you point out below, but if you try to "correct" the 34 rules of my "Transits and Solar Returns" within February 10, I'm afraid you will take a very bad year.

So I advise you to stay at home or to follow without further discussions my advices.

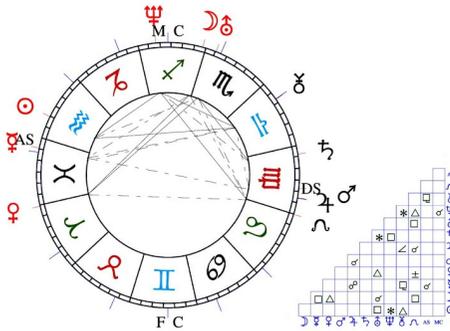

I am leaving for a Aimered Lunar Return of mine in New York and I can not give you a summary of 43 years of practice in a few hours. My advice is to have to go to Saint John's, Newfoundland, Canada, OAG airport code YYT, a flight of about six hours from London.

You'll have to find you there on the night between 8 and 9 February and you can also come back the 9 morning, at sunrise.

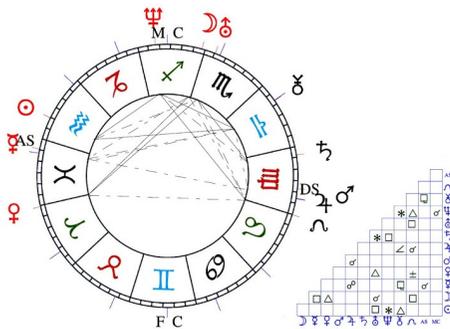

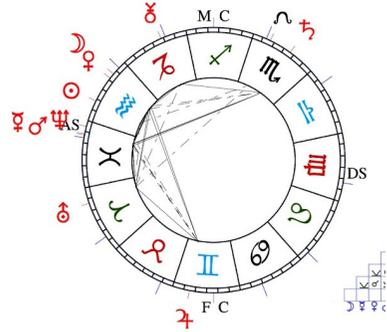

One of my 34 rules says that the 20 days before and after your birthday are full of extraordinary events, positive and negative, but their meanings are those of the ASR that is running and not those of the future ASR.

To enlarge the charts, click on them.

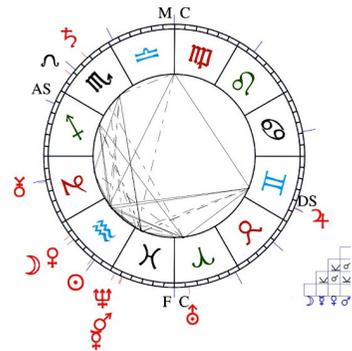

Many greetings.

Dear Ciro,

I booked everything for my travel, but now I don't know if I still want to go there.

If I would change the route to Izmir, Turkey, how would my year be?

Have to admit that, I'm looking with distrust at Uranus in 12, Pluto on MC and Saturn on 7th. Are these terrifying positions?

Can they be exorcised?

Thank you!

Georgiana

Also, what do you think about Van in Turkey? Is the combination ASR in 8th house with Mars in 11th dangerous?

I was considering to redo the surgery of the maxilla as my bite still is putting me in pain. Also, want to concentrate more on a possible music career. This is something I am trying to do for some years. Which of these charts (Van, Izmir, Guane) are best for my intentions.

I don't know if I have these second thoughts because of my current LR or because I distrust a Guane format of chart with lots of planets on 2nd house and nothing special linked to my 10th. I have been planning this format for Montreal because there I had a perfect conjunction of Jupiter to the 7th, so I was hoping to mend my relationship situation and protect the partnership. But now there is an imperfect conjunction. And this last month has made me realize that I am not so dependent on a relationship and that I need myself more than ever. I need to remember to myself who I am and what I want.

Best regards,

Georgiana

Dear Georgiana,

I think you do not want to accept the fact that we can not build the sky of your next birthday on the Tenth House.

In my opinion this fact is throwing you in a panic and your Turkish alternative choices are very bad.

I advise you to have to go to Guane because Jupiter glued to Descendant helps you to love, but also helps to relations with the law, relationships with others, to get a higher audience, is good for health, for work, for labor relations ...

I know that now you will torture yourself yet, but my advice is to trust me and to go away from thee the project to have a next Aimed Solar Return perfect or beautiful. In your case all that money in 2nd House will almost certainly get you in and you can also obtain some improvements in your look.

Many good wishes.

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of

the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 65 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia). He has published also about 750 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
