Exercises in Aimed Solar Returns from the Blog of **Ciro Discepolo** (97)

Dear **Ciro,**

Thanks for your Union Jack flag&all welcome! :)) But thank goodness I'm not even remotely related to Her Majesty, though many moons ago I used to work at her Cavalry&Guard Officers Club reception in Piccadilly and got to see some of the "Family" up close and in a very British style...

I have no comment to make in regards to any of them... besides what I've already said earlier on :))

I'm reading Aimed Solar and Lunar Returns kindle version, and I hope that also the book you've advised me to read will be soon available in kindle.

Above all thanks for your ASR recommendation! I am really excited and looking forward to organize it.

Hopefully, as December is still some time away, I'll be able to sort out the likely obstacles too, like for example, arranging the care for my Dad while I would be away.

Since my Mum died suddenly and prematurely in May 2011, I've looked after my lovely and elderly Dad (born 4/12/1929 in Todi, time unknown) who's disabled and has got Parkinsons. He came to stay with me in the UK, from Italy where he lived all his life until my Mum passed away.

I cut down the hours at work so that I can spend also time with him. But between the grief for the loss of my mother and my home life / general lifestyle being thrown into chaos, with all sorts of repercussions and various impasses (like, just to mention a few, not managing to sell my parent's house in Italy in the present economic climate; or not managing

to take a decision in regards to my Dad's residence status which affects a number of things; being unhappy in /with my flat which until 2 years ago was my pride and joy where I felt the happiest, and I could go on boring you with many related issues) I am starting to lose hope to regain even a fraction of control and enjoyment of my life. In short, I'm probably beginning to experience what in the UK it's called "carer stress".

Still, I want to wait longer before considering a rest home for my Dad, as neither of us particularly like the less than human way, elderly people are frequently treated in both Italy and UK.

I know I still got a few years of Uranus in 4th house, but I'm getting seriously worn out by this transit.

By the way I have already had a hysterectomy+ovarectomy in June 2008, and breasts reduction in 1994, so I've run out of appropriate bits to "sacrifice" to the "gods". Nervous breakdowns and antidepressants are also out of the question as the one I had 2006/07 was enough for me.

Clinical depression doesn't suit my basic solar and optimistic nature. The ASR journey near the Pole is definitely looking, in comparison, easy to organise.

My apologies, for this mail has got longer than I expected and also for the initial ASR double request (so I'll get in touch about my previous request for my son's ASR at another time). I know some information in this mail is confidential, I trust you with it so please edit it as you see fit if/when you publish it in your blog.

Again many thanks, also for reading all my above "laments".

Best regards,

Clarissa

Dear Clarissa,

best wishes for everything. I hope that you will be able to depart. If you want that a part of your posts will not appear here, don't write them.

Best regards.

Dear Ciro,

Thank you very much for your reply on my request dated March 8th. I would like to apologize for coming back to you again a bit late.

Since I had missed to provide you with all the information related to the request, I tried to find some possible solutions which to consult with you. Sorry if I had wasted your time on an incomplete request.

So the full information about Laura is the following:

- Born – 16 June 1986/ 2:15 pm/ 27e55, 43n13

- Currently lives and works in New York. She travels a lot for her work and in vacations does long-distance journeys.

- In her 2012 SR she's had Sun, Jupiter and Venus in MC and Mars in 1st. (spent her birthday in San Francisco.) She's progressing in her job and feels happy overall. (Hope that Mars in 1st won't bring any trouble until next SR.)

- As she is building her career now, it will be good to continue to have success at work. On the other side, she needs more love to come – 26 already:).

(Her New York 2013 SR has Sun, Jupiter & Venus in the 7th, but also Mars in the 6th and Saturn in MC, cusp 11th.)

It looks to me that the best place overall is somewhere in New Zealand (Sun & Jupiter in MC, Venus in 11th), but she will not be able to go there due to time travelling constraints. (Can't get off work that long at this time of the year.)

Most probable, she can go somewhere for the weekend (e.g. around USA or within an 8-10-hour flight-reach, Europe?)

I was looking at the Azores... - Sun & Jupiter in the 5th and Venus in the 6th, but also ... AS and Mars in the 4th? (It's not time for her to deal with real estate now.)

I will very much appreciate your help in finding the right SR place for Laura provided the info above. Thank you very much for your consideration and support!

Respect and many best regards,

Vicky

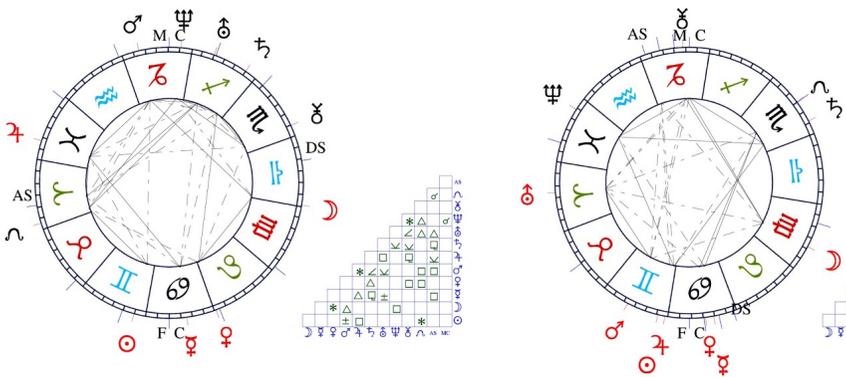

Dear Vicky,

I think that it is not always a good idea to economize, in money and in kilometers, the journey of the birthday, but I will make as you desire.

My advice for Laura, now, is Red Dog, Alaska, at $162^{\circ}54'W$ and $68^{\circ}01'N$.

Attention! At this latitude Laura have to stay exactly in that point and not 1 kilometers far!

Best regards.

ASR Red Dog Alaska 2013 For Laura

Dear Ciro,

thank you very much again for all your dedicated efforts to help me and all people coming to you for advice!

Please excuse me but there may have been a mistake with Laura's birth time – it is 2:15 PM (14:15) not AM. Correct Laura's data – 16 June 1986/ 2:15 pm/ 27e55, 43n13; currently lives and works in New York, US.

Could you please advise on where the sky is best for work success +love, if possible – (1) the very best option and (2) one around USA or an overnight flight from New York.

Thank you very, very much and many best regards!

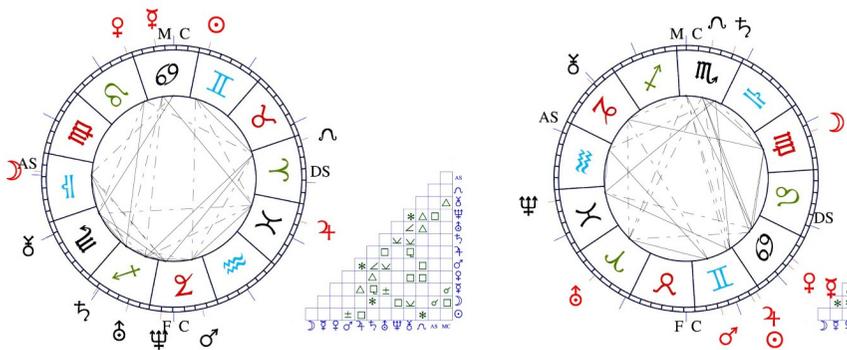

Vicky

Dear Vicky,

I have saved well the time of birth of Laura for the 14.15, but sometimes the devil puts us the horns and makes to appear a graph to the place of another.

That correct is for the island of Horta in the Azzorres.

Many wishes.

ASR Horta Azores 2013 For Laura

Dear master,

thank you very much once again for your help!

Highly appreciated! Compliments for your new book!

Many best regards,

Vicky

It was a pleasure for me.

Master Ciro,

I have been following the lunar returns for several months (in addition to the solar return) with tangible results.

I notice however that the effects of the lunar return can be felt before the event. For example, I partly ended a relationship with saturn in the Vth one week before the lunar return of March.

Is this possible?

Can you recommend a very favourable lunar return for April. Possible in the ME.

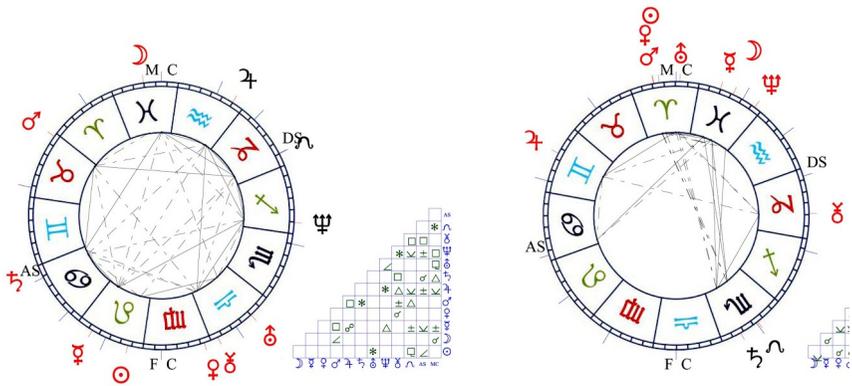

Your respectfully,

Anne Marie

16.08.73- 2.05 AM (TS)

Is this possible?

ALR Boston April 2013 For Anne Marie

No, dear Anne Marie,

it is not possible. The new Aimered Lunar Return cannot begin also one 1 minute before.

If we could speak together for many minutes I could explain to you how to read the fact, but remember: an ASR or an ALR can start only in the precise instant of the Return!

For your next ALR I advise you between two options: or Boston (April 17th, at 5.19 pm London Time) or staying in Dubai.

Best wishes.

Ciro Discepolo is an astrologer, journalist and writer, he was born in Naples in 1948 (on the 17th of July, at 5:40 am). He worked for twenty years for the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He has always refused to cast the so-called ‘horoscopes of the solar signs’ for that newspaper, as well as for any other newspaper or magazine. He worked (at the age of 20) for five years at the *CNR* (*National Research Council*) as Research Helper

and, for two years, as Electronic Measures Laboratory’s head in the *Istituto Motori* of Naples, *CNR*. He has been dealing with astrology since 1970. He has written over 70 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia) and he has published over 1,000 astrological lessons on *YouTube* and about 300 short *Astrology Essays* on *Google Books*. In 1990 he founded the quarterly *Ricerca ‘90*, which he has been editing and publishing since then. He has been doing statistical researches from the very beginning of his interest in astrology. During the early ‘90s, he obtained brilliant results with researches on astral heredity on a sample of over 75,000 subjects, in different years and always under the control of different experts of statistics among which also teachers of the University of Naples. The astrological rules #1 and #2, published in his *Transits and Solar Returns* but already described decades earlier in other publications of his, have been statistically demonstrated by Didier Castille – the greatest astrological statistic researcher in the world – on the entire French population, and this is probably the most convincing evidence in Astrology of the possibility to statistically demonstrate some astrological items. These rules were also demonstrated in over 40 years of studies by some researchers of Zurich University and they are the only statements of an astrologer, of every time, demonstrated by Official Science. He has been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad. He particularly deals with Predictive Astrology, Aimed Solar Returns and Aimed Lunar Returns. According to many colleagues, he may be considered the greatest living expert of this area of study. Not only has he written many texts on this specific segment of the art of Urania – he can also rely on the experience of more than 25,000 aimed birthdays (covering the years 1970 to 2012). The outcomes of these aimed birthdays have been recorded and analyzed by his consultants and himself at the end of each year after the consultant’s departure for the aimed birthday. He has developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year, for individuals or groups of people. He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault. He founded the school of the *Active Astrology*.
