# Exercises in Aimed Solar Returns from the Blog of **Ciro Discepolo** (43)

**Dear **Ciro**,**

For me, I was talking about the ASR that's just passed, the one in 2012, not next year's ASR, I haven't thought about that far away yet.

The LR I'm concerned about is the one for this July, do you have any suggestions?

I do want an ALR that can help me pass exams at school.

lots of thanks,

Deva

**Dear **Deva**,**

I advise you Honiara Island or, more cheaper, Casablanca in Morocco (it is not important to get 3 Celestials in the first House because is a Lunar Return).

**ALR July 2012 For Deva Casablanca Morocco**

ALR July 2012 For Deva Honiara Island

\*\*\*

## Ciao,

Ciro: so I looked at the chart you posted for Nunavuk again, it was almost the same as the chart I generated for Yellowknife, except Mars is much further away from the MC, i was thinking maybe it's because the daylight saving time starts differently in Canada and in Italy, in Canada daylight saving starts on March 11, 2012, and it starts on March 25, 2012 in Italy. And I'm the lucky winner fallen between them.

But yes, my main concern is saturn in 11th house working at a weaker level similar to it's in the 7th house will counteract with jupiter/venus, but I probably am worrying too much.

Deva

## Dear Deva,

there are three elements that make us prefer the graph of the Nunavut in comparison to that of Yellowknife:

- 1) Saturn is surely in 11<sup>^</sup> and not on the cusp of the 12<sup>^</sup> House
- 2) Mars is away from the Mid Heaven: if we can avoid it is better so.
- 3) the Ascendant is not in the X House contemporarily to bad transits during the year.

For the job that you do this it is not terrible, but these three elements, taken together, make say us that the Aimed Solar Return of the Nunavut is best. However you are calm because that of Yellowknife is not bad. Best wishes.

P.S. The Daylight Saving Time and the Time Offset are not important in the calculation of an Aimed Solar Return or of an Aimed Lunar Return.

**Hi Ciro,**

Thank you for answering my previous post, I'm sorry I forgot to mention that I was born in Florence Italy on June 25th 1962 at 8 pm.

I will be traveling from Santa Fe N.M. to Florence for my 50th birthday, so I was wondering where it would be better for me to be on my birthday.

I could be stopping anywhere on the east coast or europe.

Thanks, Ro.

**Dear Ro,**

a your next Aimed Solar Return to Florence is not possible because the Ascendant should be in the First House and Mars and Saturn in the 8<sup>^</sup> House (please, read my 30 rules in "Transits and Solar Returns").

Adak in Alaska is good!

Best wishes.

**Adak Alaska ASR 2012 For Ro Of Florence**

**Dear Ciro,**

Thanks for the advice, Casablanca is very good. Do you mean the Honiara of Solomon island? Yes, it is too far and too long a trip.

About your comment of not putting ASC in X house: not sure if I interpret you right, is it because the SR saturn in 11th suggests the death of others, and jupiter in 7th can mean accusations, it has the risk of harming my career reputation for what I am doing? So would it be okay to put ASC in X if my saturn is not transiting my X house?

Last year's my ASR ascendant also in X house, and in the month of my worst LR (I can't leave then), the trouble is caused by SR mars in V house (me joking around) cause me troubles with the authority. But overall, it is a good year.

Deva

**Dear Deva,**

yes, it is Honiara of Salomons Islands (a very terrible place!).

We cannot use the Ascendant in X when there are, contemporarely,

bad transits as Saturn in X or Saturn, Uranus, Neptune and Pluto in conjunction to the radix Sun or square or opposite to it and other...

But the risk is in relation to the objective danger of a reversal of a social/professional condition: a political subject that falls, an important journalist fired, ecc.

If you are a scientist engaged in the studies and in the research, the risks are a lot lower. But it is the unique position where it is very important the personal experience of the astrologer to decide to leave or not the AS in the X House.

Best regards.

**Dear Ciro,**

Sadly I couldn't travel to the location you advised me for the last solar return and I had to pick another one closer to my country. This solar return has the ascendant in the 10 house but I have strong transits there the hole year.

I learn from your books to take care with this but I had no other choice. My great concern is that for this year things are going to be hard again, because the transits are going to be very ugly. Saturn conjunct the Sun and both squaring the Moon in the solar return is a bad sign.

Could you, please, help me to choose a good place to be in my next solar return? Bad transits and a bad SR is too much, don't you agree? My data is: Birthday 10/23/1954 Ribeirão do Pinhal Paraná Brasil 11:10AM The 2011 SR was in Salta Argentina.

I live now in Ponta Porã MS Brasil, but here it looks like a bad place, isn't it? I would like to improve my health and money.

I will be very grateful for your advices, and I thank you very much.

Best regards from Brasil! Vera.

**Dear Vera,**

bentornata! Regret me some news that give us, but this shows, for the

thousandth time, that to do an inexpensive Aimed Solar Return is never a bargain!

I now recommend you Fernando de Noronha, in your Brazil, with a splendid Venus on the cusp VII/8^ Houses!

Best wishes.

**Fernando De Noronha ASR 2012 For Vera**

\*\*\*

**Dear Ciro,**

Saturn in the 5th house of my solar return has been exactly what you predicted. I was just fired from a job due to my co-worker / uncle's strained relationship with the office where I was stationed, after speaking very little on a day to day basis, as it was not my field.

However, I became more serious about my music, and finally have a record deal in the works as a result, though much of the playful fun of it is gone.

Saturn, my chart ruler, is conjunct my Scorpio ascendant. May I ask you to interpret Saturn on the 2nd/3rd cusp of my next year's return? I do not want to simultaneously have no money, while having writer's block. Is it possible I will become more financially responsible, and take the lyrical side of my craft more seriously, as I may very well be on display?

I am also concerned with the safety of all telecommunications devices and GPS trackers, hacking, etc.

Your guidance is invaluable,

Michael

**Dear Michael,**

I will do gladly it if you will post again the question also telling me where you will spend your next Aimer Solar Return.

Best wishes.

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of

the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 65 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia). He has published also about 750 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
