Exercises in Aimed Solar Returns from the Blog of Ciro Discepolo (49)

Dear Ciro,

Thank you so very much for your help with our solar returns last year. Catherine and I are most grateful.

Last year I mentioned concern with bringing in income from business. Interestingly, the day I returned from my trip, I stayed overnight in Los Angeles before driving home to Fallbrook.

That very day I met with an individual with whom I started a business relationship. While there is still more to accomplish for business, this situation has brought in more income so far than I have had in a few years.

Thank you!

Catherine and I went to Koror, Palau for her Solar Return on your recommendation, and it was a fabulous trip, a true paradise.

The universe seemed to cooperate. As we looked for flights we found we could use frequent flier points on supersavers, and the round-trip flights for both of us from Los Angeles cost \$100 total!

Catherine often says that this trip has been life-saving for her in terms of health this past year, and she is extremely grateful for your kind and wonderful guidance.

Well, we are about 5 weeks from my birthday, so I wanted to ask your advice for 2012.

(We have a bit more time for Catherine – Sept 2.) Again, my priorities would be good business (successful, profitable, and happy) and an improving financial situation, but I don't want to leave out health and relationship.

Catherine recently ordered three of your books in English on Amazon.com which she didn't already have (medical, lunar returns, and chart rectification), and she looks forward to reviewing them for Amazon. She has always praised your work most highly and found it outstanding.

Our birth information is as follows:

Patrick Russell: 16 June, 1951 3:05 AM EDT (+4.00) Washington, DC, USA

Catherine Christopher: 2 September, 1951 10:45 AM EDT (+4.00) Summit, NJ, USA

Thank you again,

Patrick

Dear Patrich and dear Catherine,

I am very pleased indeed of the good news that send us. It is not a novelty that an Aimered Solar Return begins immediately to work after a birthday.

Do you know that the most important statistic researcher in astrology, today, Didier Castille, has been able to demonstrate, on the whole French population, my rules #1 and #2 of the book of mine "Transits and Solar Returns", that I had written decades before his searches and he has shown this even if didn't know my rules?

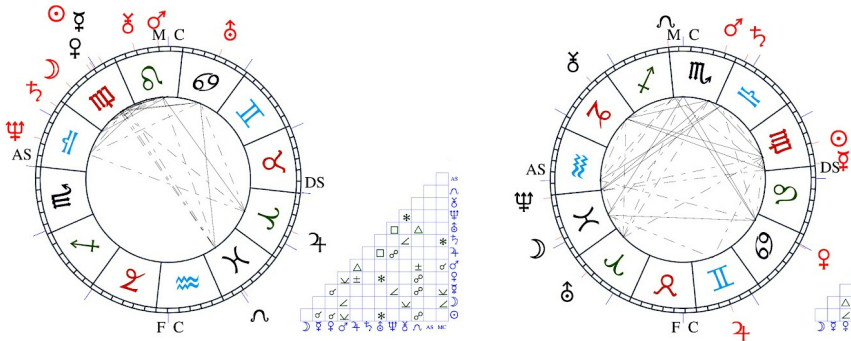

Dear Patrick this school of Astrology, Active Astrology, is directed to get facts and hundreds of friends every year leave, as you have done, their testimonies on which cannot be had doubts. Then exist false astrologers that don't know how to make the forecasts and they prefer to do philosophy to avoid to make public forecasts and to be wrong.

Here under you will find my suggestions for your next birthdays that this year are very difficult to be done well because Mars and Saturn can be only in the 3[^] and in the 9[^] House and then because I cannot put, to one of you two, Venus in 12[^] House otherwise you would have done disagreeable in relationship to the health of the consort or to your relation of couple.

Read, please, the notes after all to the page. I would finally like to

suggest to you, Patrick, not to ask suggestions for the new birthday with few days of advance.

Best wishes.

ASR 2012 For Catherine Christopher For Port Hedland Australia

ASR 2012 For Patrick Russel For Kununurra Australia

Dear Ciro,

Thank you so very much for your kind advice for our Solar Returns this year. We don't know if it will be possible for us to afford trips to Western Australia.

We will try to arrange to go, but if we can't we will do the very best with Lunar Returns and your other methods.

(Last year we used up frequent flier points we had been saving for many years to travel to Koror, Palau.) By the way, your books

Catherine ordered arrived. She started reading your book on chart rectification, and she is extremely impressed with how clear, practical, and well written it is -- so she sends a special thank you to you for your wonderful books.

Very best regards,

Patrick Russell and Catherine Christopher

Dear Patrick and dear Catherine,

I hope you will be able to depart. I am happy to read that you like my books. I think that my English Readers will have some good surprises in the next months. Best wishes.

Dear Ciro!

Hope all is well with you! I just wanted to THANK YOU very much for your advice...

Ciro, I've followed your indications for the past 3 years, making close geographical adjustments! That you approved!

This solar return was magical and transformational...

You decided that Baja California was the ideal location and conceded to a more accessible location which was Los Angeles, California.

I stayed close to Santa Monica. I had one of the best birthdays of my life!

It was difficult before I left - with uranus cnj merc in 9th played out before I flew! The airline threatened to cancel my ticket over a name difference. This took a day to resolve with me chasing one line manager after another. Finally one of the manager's with some sense in him resolved it. This was very stressful.

I'm wondering what you think about an astro-relocation to Big Sur, CA, USA?

I had a quick look - Focus on the 11th with asc ruler there, sun in the 12th, saturn ruler of MC is in the 2nd. but in Los angeles uranus is ruler

of MC and is in the 6th. neptune in desc.

Pluto also in 6th..

What do you think of this chart for a predominately:

- ecological/spiritual experience?

- or for a scientific/academic experience/job

what do you think of the financial aspect.

there is a possibility that I can get an apprenticeship to do a sustainability course in this location.

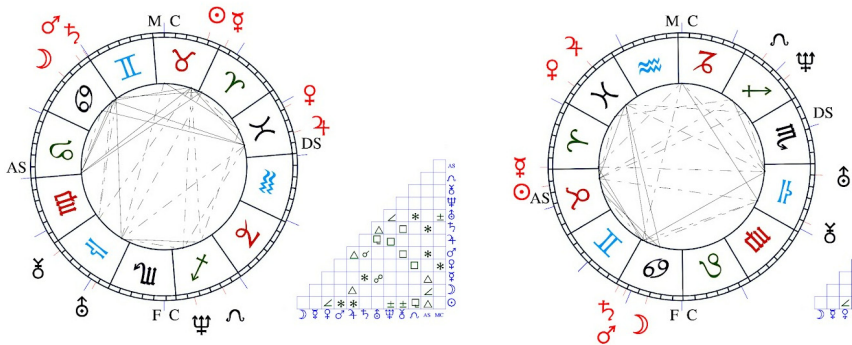

I've emailed you a picture of the Yogananda's lake Shrine in the Pacific Palisades, Sunset Blvd. where I spent my birthday. I strongly recommend a visit to this Special Oasis!

Thank you..!

Best regards :-) Tiger

Dear Tiger,

I am so happy for your beautiful year after the last Aimed Solar Return in Santa Monica!

Relocation OF Tiger In Big Sur California

For the Relocation to Big Sur in California, I suggest you to choose better. There you have only a large conjunction of the Sun to the Ascendant, but you have to remember that in a relocation the Houses have not a value: only the Celestials in conjunction to the

four cardinal angles value.

The reading of this kind of chart is completely different in relation to a Natal Chart and to an Aimed Solar Chart.

If you want, you can read the book of Andrea Rossetti and me: "Astro&Geography" to understand better.

Book Description

Publication Date: October 10, 2011

Astrogeography probably represents, together with the Aimed Solar Returns and the Aimed Lunar Returns, the most objective and mathematically verifiable field of the entire Art of Urania. As with our other publications, in this short, yet exhaustive text also, we have adhered the following rule: an example is worth a thousand words. Here you'll find many examples; probably all of them can be defined remarkable ones. These examples show in practice how true and verifiable by anyone is Astrogeography, a discipline whose readability, a priori and a posteriori, leaves people almost bewildered by what might be called its "scientific" features. Astrogeography – but this may as well refer to all of Astrology – expresses the basic concept upon which our studies rely: namely, that everything that is born takes on the characteristics of the place and the moment of its birth. Therefore, if we apply the variable space to all the components of Astrology, we are able to experience at first-hand how the real things change depending on their geographic latitude and longitude. In this text you can also find the evidence that Astrogeography was already known to Giuliano Camerino, an Italian Renaissance astrologer; in fact, it is probable that the field of astrological knowledge was known even centuries before him. This volume lists all the astrogeographical positions that may be of interest, together with their explanations. They help you detect the best places on Earth that you can move to and achieve a successful career, monetary gain, love, health, and so on... You will also find detailed explanations about the so-called perans, which are so important in World Astrology. This volume is an extensively revised edition of the earlier Italian publication. It has been co-written by me and Andrea Rossetti, one of the best Italian astrologers, who has a great passion for this subject and has contributed more than me to this work, which I hope will be successful in its English version also.

Chibougamau Quebec Canada For Alfred's Brother

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 65 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia). He has published also about 750 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
