Exercises in Aimed Solar Returns from the Blog of **Ciro Discepolo** (65)

Dear **Ciro,**

I wanted to post on your blog, but I think there is an error, because I can't do it anymore, so I am sending my questions through the email. You can post my message on your blog.

There are a some things that might not be too clear.

If a planet, let's say Saturn, transits a certain point, for ex, and it conjuncts the Sun on the day of the SR and then, during the whole year, it no longer conjuncts the Sun, which is the most important influence as a symbol, the aspect in the SR or the transit?

I know transits are subordinated to the SR, but, still, this might leave further interpretation.

Also, what if we deal with the reverse situation? Saturn doesn't conjunct the planet in the SR, but it conjuncts it during that year.

Which is the difference between the 2 situations from above?

You mention in your books that a transit becomes effective within an orb of 2-3 degrees. Are there situations when the influence is felt even before/after: at 4-5 degrees or above?

As regards my next SR in 2013, I find myself a little indecise.

There are 3 options:

Brisbane(AU) - suggested by you

Gaborone (Botswana)

Montreal (Canada)

Brisbane seems good for general elevation in profession and life, but it

affects, too much, in my opinion, the love life (Mars and Neptune in 7th) correlated with a Saturn transit in square to Venus.

Gaborone - I don't trust Saturn in 8th, especially since I have a bad transit in 2nd house towards the Sun (square); Mars in 11th with Saturn in 8th might announce some grief.

Montreal - seems a safe choice, especially since I had 2 almost similar SR charts for the past 2 years, love and health seem protected. What I don't like, is the cluster on 2nd house, contemporarily with a Saturn transit in the 2nd. To be honest, the past 2 years (similar charts with 2nd house influence) were more about expenses.

What I personally want for 2013 is elevation in profession and good health, but, also, I don't want to ruin what I've built for this year, as regards love.

I am also looking forward starting a business in partnership this end of year, so I have to choose a good chart in this regard for next year.

I am not sure if the business collaboration might constellate itself with a Mars and Neptune in 7th (Brisbane chart). What is your opinion?

Thank you!

Best wishes,

Georgiana Costescu, Bucarest

Dear Georgiana,

yes, it is true: many bloggers are privately writing me to tell me that they don't succeed in posting on this blog.

I think that all of us have to be patients and to understand that the enormous success of Google is so great that this marvelous reality of the web doesn't succeed in growing to the extraordinary rhythm of the applications of the users.

For example, from how much the technicians of Google - that they are always very kind and prepared - have communicated me from over 6 months there is a bug on my account and they were not able, until today, to destroy this bug?

For this motive I am posting not my Astrology Essays on Google Books,

but on my sites. For the same reason at times they disappear, for months, millions of documents of mine that are on the web and that they are seen with other search motors, but that by Googles don't appear.

Have to be patient because, as I said, Google is certainly the Number 1 in the whole world!

And we come to the second part of your post.

As many others and you have understood, my school of Astrology gives the maximum relief to the Houses: could we call my school "Astrology of the Houses". Why? Reflect.

In Astrology whoever understands, studying a lot, that an astral configuration is very more powerful how much less time lasts. A Celestial stays only also about 1 hour in a House of Solar Return, or a little anymore, if it is found in a sign of short Ascension.

This means that such configuration will characterize only the subject and a limited number of other people.

We now take a conjunction Saturn-Sun as that that is touched for many months, recently, to all the people with the Sun among the 22 and the 24 degrees in Libra: millions and millions and millions of people!

This configuration cannot be so important as another that "burns" only 75 minutes!

Then we give a lot of weight to the position of the planets in the Houses and a little to the transits.

Nevertheless the passage, for example, of Saturn on the Sun of birth, it is generally very hard and, if in the same year, we leave a stellium in I, 6[^] or 8[^] or 12[^] House, we will have to attend does heavy indeed for the subject. If then the relatives of this subject will have also them heavy positions, there will be indeed a very bad year, certainly.

I consider the orbits of the aspects smaller of those that you quote (the point on the situation there will be in the next my two books): if we speak of Pluto, Neptune and Uranus, I generally consider 1, maximum 2 degrees and I totally exclude that at 3-4 degrees there is every effect.

We now reason on the next your Aimed Solar Return and let's set us a question: do we want "monetize" immediately or to invest, possibly in irreversible way for the future?

In the first case I again recommend you Brisbane, where you can defend your recent love using a lot the exorcism of the symbols, for example practising martial sport and quarreling a lot with a forgery objective: a neighbor, a stupid astrologer, etc.

The Aimed Solar Return for Gaborone is unadvisable for the reasons that you same have said: also I would avoid a so heavy combination of 8^ and of 11^ House.

The one for Montreal is good and interesting, but the Jupiter on the Descendant, today that you are living a beautiful love story, it could be dangerous for the love almost as the Mars in the Seventh House of Brisbane.

In short, dear Georgiana, as you know because you are among my best colleagues that are formed theirselves to my school, we cannot annul the malefic stars with the bleach and we have to accept to have some damages.

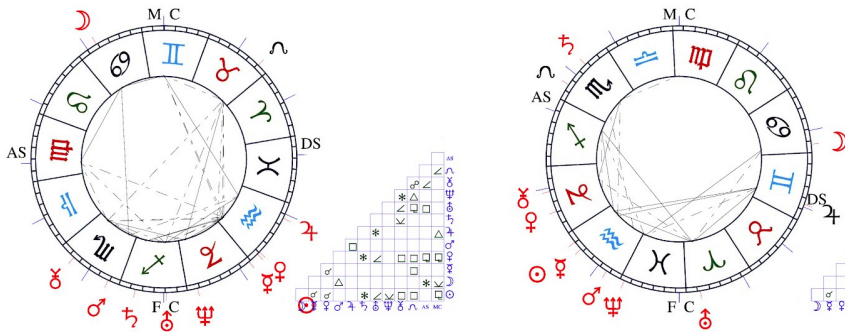

An affectionate regards and best wishes.

Thank you, Ciro!

Somebody was asking me. How can the SRs of people who travel in space be configured? (you can post this question on the blog)

Best wishes and regards,

Georgiana Costescu

Dear Georgiana,

our good colleague Luciano Drusetta that is one of the best owners of Active Astrology wrote some very important articles on my magazine Ricerca '90 on this matter.

I will ask to him translating them in English and to post on his blog and also on our blog.

Best regards.

Dear **Ciro,**

Can you suggest where to aim my father's upcoming Solar Return?

His birthday is October 31, 1942 (10:16 PM EST -5)-- Jersey City, New Jersey, USA. (74w05, 40n44)

As of now, it is a 12th house return, with Pluto conjunct descendant. Seems like a true disaster! Any suggestions??

Ever thankful, Michael

Dear **Michael,**

in this occasion you have done me to work more than the preceding questions. In fact you have written that your father was born to the hours: (10:16 PM EST -5). This means Eastern Standard Time. Instead to my Aladino Database and also to the Thomas Shanks Database results that in the New Jersey there was, that day, the Eastern War Time from February 9th 1942 up to September 30th 1945, uninterruptedly. I have tried to also trace the graph with Astrologiainlinea.it and with AstroDienst and all and three we find us with an Ascendant Cancer to around $13^{\circ}38'$. Then we should be OK, but you make other searches for safety. Could also try on an Italian website managed by the rats that is precise and that can mistake at the most 15° on the Ascendant! And we come to the next Aimered Solar Return of your father. I certainly recommend you Norwich - England that is a very very good ASR. Nevertheless, despite this ASR is very good, the passage of Saturn on the Sun of your father and a stellium with Mars in its IV House of SR, makes me say that it would be better, for your father, if him, from 30 to 40 days after the birthday, to get a surgical intervention to exorcize these positions. He could also get a laser to the eyes. Many wishes.

ASR Father Of Michael 2012 For Norwich England

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 70 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia) and about 250 short Astrology Essays almost all on Google Books. He has published also about 1000 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
