# Exercises in Aimed Solar Returns from the Blog of Ciro Discepolo (83)

**Dear Ciro,**

Thank you for your answer. If the blame is to put on this current LR, then I can assure you that it is a very very bad LR.

As if I didn't have enough stress, they refused my visa for Canada on Monday.. So, I will no longer be able to travel to Montreal. They couldn't understand the purpose of me travelling alone there.

The main issue that I encounter is that now it is almost impossible to travel anywhere in North America or in the insular region, as almost all the flights to the islands connect to US, for which, of course, I need a visa.

The only suitable (in my opinion) country I could go to, without needing a US transit visa, is Cuba.

But I need a visa for Cuba and it is not sure if there is enough time to obtain it before my SR.

Therefore, I am somehow stuck. Another option would be Moscow in Russia. I would need also a visa for Russia, but there is the possibility to have it in urgency the same day I apply.

The issue now is that in Moscow I would have a Saturn in 6th and Uranus in 12.

The question is, can I handle this? I read your book with the constellation of the symbols, so I should go through some physical suffering with Saturn in 6th, especially dental suffering.

I am still under orthodontic treatment and I don't know if it is safe to endanger my bones and teeth, moreover because I had a surgery.

I don't know what to do. All sort of ideas come through my mind. Could

Jupiter in 1st protect the health against Saturn in 6th?

What do you advise?

Thank you a lot!

Georgiana from Bucarest

**Dear Georgiana,**

I advise you to try again asking the VISA for Canada, adding this my short explanation of the reason of the travel:

### **Aimed Solar Return**

I shaped this expression myself to indicate the possibility for whoever to go away on the day of his/her own anniversary in order to take advantage of a birthday astral situation better than the one they would experience if they remained on their own place of birth.

In the January 1999 issue of the Italian magazine Sirio my colleague Grazia Bordoni published an anthology of declarations about the Aimed solar returns.

At the end of the article my no-friend Grazia was sad to inform me that I had been the only one who expressed the confidence that Solar Return maps are to be cast for the place where you spend your birthday – not for your birthplace.

Actually, this lent me a hand. In fact, when I began claiming it with conviction thirty-one years ago, I had to face the opposite, often fierce opinion of the overwhelming majority of my colleagues.

They even derided me for this, harshly and openly criticizing my custom of suggesting Aimed Solar Returns to my clients.

Later on, as my works were published in magazines and books, growing legions of readers embraced these studies, swelling the ranks of the persuaded followers of this technique; in order to do that, some of them even disobeyed precise orders of censorship of their own masters – my colleagues.

Today an opinion poll would show that the "base", even those belonging to schools other than mine, believes – in the great majority of cases – in Solar Returns and in Aimed Solar Returns.

On the other hand a growing number of Pharisees, who have repeatedly affirmed their own scepticism on this topic until the other day, has suddenly begun to assert that they have always been persuaded of the validity of ASR's; and that this matter is so evident that it is not even worth mentioning. This is the reason why I am particularly glad for the testimonials published on the a.m. issue of Sirio.

Why have I been the first one to embark on this kind of study with such a great fervour – at least compared to my colleagues?

There are exactly two reasons. To study an Aimed Solar Return with all the pertinent charts and the calculation required to cast each of them, you must have adequate technical means at your disposal. In the early 1970s I already used tiny Hewlett-Packard pocket computers – the real programmable ancestors of Personal Computer.

With the help of professionals on informatics, on such machines I elaborated programs that took full care of the long and laborious calculations necessary to SR's.

Today's program Molriv of ASTRAL is one of those little jewels: it scans the entire terrestrial surface in a few minutes.

The other reason that favoured me very much in the study of Aimed Solar Returns is that, differing from the times of Alexander Volguine, nowadays whoever wants to spend a birthday in New York City – now as well as twenty years ago – must not sell his/her own house away any longer, for you can afford it for less than 1,000,000 Italian Liras.

I have been "sending" hundreds of people (more than 25,000 individuals as on January 2013) to spend their birthdays abroad every year for 43 years. The balance I have drawn up is astonishingly positive, as you can read in my book Transits and Solar Returns, [www.Amazon.com](http://www.Amazon.com).

If you will not able to get the VISA, the only alternative is Moscow, exorcising every day the bad positions. Surely Jupiter will aid you.

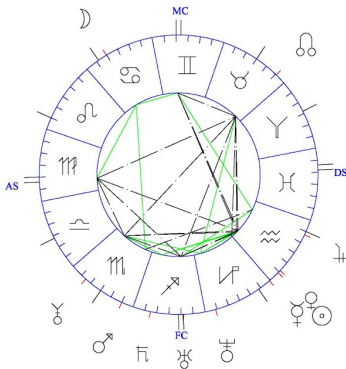

Also Cuba, I think, is possible: departing from Italy with charters flyths you have not to present a VISA at departing.

The VISA, in Cuba, is possible to get landing and paying about 20-30\$,

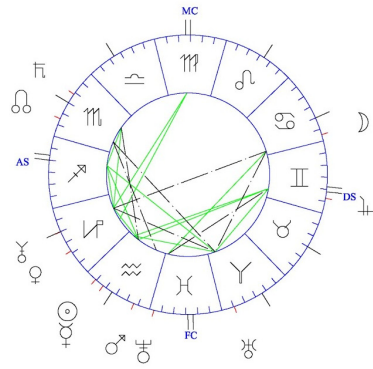

in few minutes.

Print this page and have it always with you for every location.

Best wishes.

**ASR 2013 La Habana For Georgiana**

**Dear Ciro,**

Thank you a lot for your answer!

I believe the document you sent related to the reason for travelling is very useful.

Unfortunately, I don't have time anymore to apply again for the visa in Canada, as the processing takes 10 business days (Monday-Thursday only).

I called at Cuba Embassy and they can give me the visa the same day.

So, now I have 2 options: Russia or Cuba.

As regards Russia, I think that Vladimir city is best, in order to move the ASR away from the cusp of 8th house.

For Havana, does Jupiter have any influence also on the 7th house?

Does Jupiter in 6th bring only good work conditions or also elevation in one's profession/career

Which of the two seems best for career and general life improvement with no significant risks on other sectors? Which one would you choose?

Thank you so much!

Georgiana

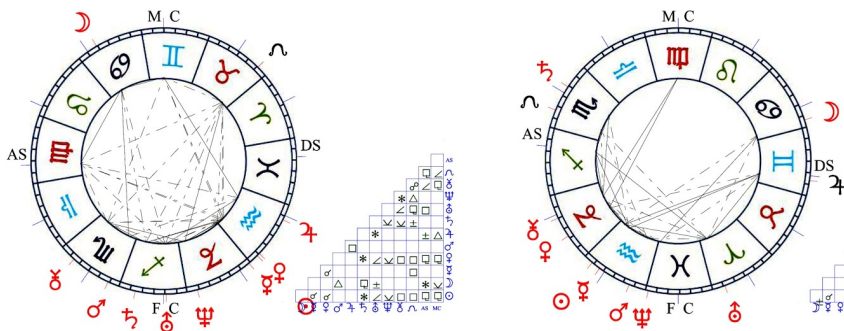

**Dear Georgiana,**

at this point you should have to go to Cuba and then, from Havana, with a bus to reach Guane or over (see the map) where Jupiter is certainly within the cusp 6<sup>^</sup> / VII Houses.

In this way we reproduce almost exactly the situation - in the part of the Aimed Solar Return of Montreal - that interests us.

If there are no bus there you can get a private car and you must pay an amount not too high.

Many greetings.

ASR 2013 Guane Cuba For Georgiana

**Dear Ciro,**

Thank you for your advise. I decided to go to Guane as you recommended. Hope everything will be fine.

To be honest, I am still thinking about that stellium in 10th house from Russia. It may have been a beautiful opportunity for elevation.

My main focus now is career. Hope the chart in Cuba won't mean only money issues, buying/spending and looks. Life is tricky.

I have Mars in 9th house in both my current SR and LR. So, I should probably book the flights more in advance as anticipation for possible delays.

Thank you a lot!

Best wishes,

Georgiana

**Dear Georgiana,**

this is the right choice. And after you can admire a wonderful place with special people that just in these days is exiting from Communism (in Italy Communism exists still!).

Yes, add at least 2 days early to be sure to reach Guane on time.

Our best wishes!

**Thank you Ciro.**

I just like to work ahead.

I have very limited friends I do solar returns for and therefore plenty of time to look ahead But thanks for making an exception for me. Neena

**Dear Neena,**

it was a pleasure for me.

Ciro Discepolo, an astrologer, journalist and writer, was born in Naples in 1948 (on the 17th of July, at 5:40 am).

He worked for twenty years at the most popular daily of Naples, *Il Mattino*, writing articles on science, medicine, informatics, literature and astrology. He always refused to cast the so-called 'horoscopes of the solar signs' for that newspaper and for any other newspaper or magazine.

He worked (at 20 years old) for five years at the CNR (National Research Council) as Researcher Helper and, for two years, as Electronic Measures Laboratory's head in the Istituto Motori of Naples, CNR.

He has been dealing with astrology since 1970. He has written over 65 books, most of them best-sellers in Italy as well as abroad (France, the United States of America, Spain, Germany, Hungary, Slovenia and Russia). He has published also about 750 Astrology lessons on YouTube. In 1990 he founded the quarterly *Ricerca '90*, which he's been directing since then.

He's been doing statistical researches from the very beginning of his interest in astrology.

At the beginning of the '90s, he obtained very brilliant results with researches on astral heredity on a sample of over 75,000 subjects.

He's been holding seminars, courses and lectures in different universities and cultural centres in Italy and abroad.

He particularly deals with Predictive Astrology and Aimed Solar Returns. According to many colleagues he may be considered the greatest living expert of this sector. In fact not only he wrote a dozen of texts on this specific segment of the "Art of Urania" - he can also rely on an experience of more than 20,000 aimed birthdays (covering the years 1970 to 2007) that he suggested, whose outcomes he collected at an interval of one year.

He developed extremely advanced software packages for the study of Predictive Astrology, also projecting an innovative algorithm which is particularly useful for the dating of events within one year for individuals or groups of people.

He is deeply interested in informatics. Astrologically speaking, he followed the school of André Barbault.

He founded the school of the Active Astrology.
